WF150	96051	12	150	110	513	189	200	218	3	A		41.4
WF180	96351	12	180	130	513	223	205	223	3	A		48.5
WF210	96801	12	210	150	518	276	223	242	3	A		58.5

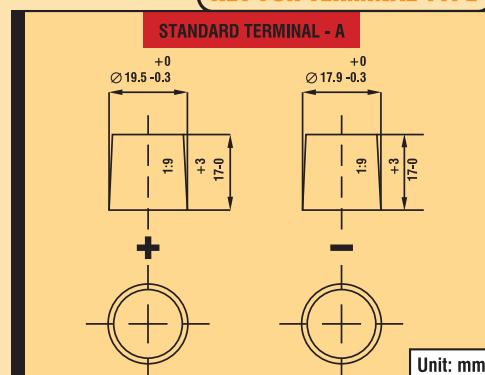

KEY FOR LAYOUT

BASE HOLD DOWN

KEY FOR TERMINAL TYPE

EXCELLENT PERFORMANCE

TECHNICAL CHARACTERISTICS

- Cycle resistant AGM Technology
- Totally maintenance free
- Valve regulated sealed type
- Very low rate of self discharge
- Thick plates with special alloy for high rate discharge
- Special grids for vibration resistant designed for heavy duty applications
- High reliability - Long service life - Long storage time

- No liquid acid - leakage proof
- According to EN 60254/1 specifications

APPLICATIONS

- Automotives with high energy demand
- Service and starting applications for yachts - boats
- Wheelchairs - Sweeping machines
- Leisure applications - UPS
